# REPORT TO THE BOARD OF DIRECTORS 

 THURSDAY 25 OCTOBER 2012FINANCE AND ACTIVITY PERFORMANCE REPORT FOR THE PERIOD ENDING 30 SEPTEMBER 2012

## PRESENTED BY THE DIRECTOR OF FINANCE

## 1. Introduction

This report covers the first six months of the 2012/13 financial year from 1 April 2012 to 30 September 2012. It includes the three main financial statements; the Statement of Comprehensive Income, the Statement of Position and the Cash Flow Statement. The report details healthcare activity along with the associated income, key operating expenditure variances, CIP delivery and summarised capital programme expenditure.

The Trust has planned for an annual surplus of $£ 0.600 \mathrm{~m}$ in 2012/13. An actual surplus of $£ 1.048 \mathrm{~m}$ has been achieved for the six months to 30 September 2012. This represents a favourable variance of $£ 0.748 \mathrm{~m}$ against the year to date planned surplus of $£ 0.300 \mathrm{~m}$ and reflects an improvement of $£ 0.288 \mathrm{~m}$ in the month.

The reported position includes an aggregate overspend of (£5.976m) across operational divisions for the first six months of the financial year after recognition of $£ 0.818 \mathrm{~m}$ of additional healthcare income. This reflects a combination of activity related expenditure in excess of the additional income recognised, the use of premium rate agency staffing, CIP slippage and a shortfall of income from the Injury Cost Recovery Scheme. The operational overspend has been offset by additional the release of $£ 6.000 \mathrm{~m}$ from Trust Specific Reserves.

The Trust's Financial Risk Rating (FRR) remains at 3 based on the 2012/13 Annual Plan and Quarter 1 monitoring and self assessment of Quarter 2 performance.

## 2. Financial Position Summary

### 2.1 Year to Date Position

The cumulative income and expenditure surplus is shown in Table 1 below. As detailed above the actual year to date surplus is $£ 1.048 \mathrm{~m}$, which is $£ 0.748 \mathrm{~m}$ above the planned $£ 0.300 \mathrm{~m}$ surplus.

Table 1 - I\&E Surplus vs. Plan 2012/13

The statement of comprehensive income appears in Appendix C. Table 2 below summarises the Trusts revenue transactions for the year. Further analysis of income is included in section 3.1 and detail regarding operating expenses is set out in section 3.3.

## 3. Income and Expenditure

### 3.1 Income Analysis

Total operating income is $£ 10.6 \mathrm{~m}$ above budget at 30 September 2012. This is largely attributable to NHS Clinical Income which is $£ 11.0 \mathrm{~m}$ ahead of plan reflecting:

- $£ 0.8 \mathrm{~m}$ recognised in respect of activity over-performance for the first 6 months. This is lower than the value of year to date over-
performance shown in Table 5 (section 3.2) as adjustments have been made for the impact of the non-elective threshold and payment risks based on commissioner queries.
- $£ 5.4 \mathrm{~m}$ for high cost drugs and devices excluded from tariff
- $£ 3.5 \mathrm{~m}$ for Enzyme Replacement Therapy commissioned on a cost per case basis by the National Commissioning Group (NCG).
- $£ 1.3 \mathrm{~m}$ relating to contract variations and other cost per case treatments.

Non-NHS Clinical Income is $£ 0.3 \mathrm{~m}$ above plan and Other Income is below plan by ( $£ 0.7 \mathrm{~m}$ ) as at the end of September 2012.

### 3.2 NHS Clinical Income / Activity

Table 4.1 below compares 2012/13 monthly admitted patient care activity against target levels for the first five months of the financial year. This shows that both Payment by Results (PbR) spells and non PbR FCEs were in line with plan both in the month (August) and year to date.

Table 4.1 - Trust Inpatient Activity

Table 4.2 shows outpatient activity against target. Total attendances were slightly below plan in August. On a year to date basis both
outpatient procedures and follow up attendances are higher than target and new attendances are marginally below plan.

Table 4.2 - Trust Outpatient Activity

Table 5 below shows the variance by Division and Point of Delivery against the 2012/13 healthcare income targets. This shows that healthcare income (excluding cost per case) is £2.6m ahead of plan for the five months to 31 August 2012. Income targets are now profiled based on working days rather than equal twelfths. This has been agreed with the Trust's main commissioner (NHS South Birmingham) and should give a more accurate indication of activity trends. The overperformance above excludes the impact of the non-elective threshold and outstanding commissioner queries. Activity performance summary against plan by specialty and commissioner is included as Appendix G.

## 3.3 <br> Expenditure Analysis

The Trust wide subjective expenditure analysis in Table 6 shows an over spend of ( $£ 9.5 \mathrm{~m}$ ) against budgeted expenditure of $£ 279.6 \mathrm{~m}$ for the year to date. The main areas of overspend include Pay ( $£ 5.5 \mathrm{~m}$ ) and activity related non-pay (£3.2m).

### 3.4 Cost Improvement Programme

The Trust's 2012/13 Financial Plan includes a total efficiency savings target of $£ 18.3 \mathrm{~m}$. For the first six months of the financial year (April September) $92 \%$ of the planned Cost Improvement Programme (CIP) has been delivered, resulting in slippage of ( $£ 0.735 \mathrm{~m}$ ). CIP delivery has improved in the quarter, up from $85 \%$ at the end of Q1, and the current forecast projects 95\% achievement of plan by 31 March 2013.

## 4. Divisional Analysis

Divisional budgets recorded an adverse variance of (£5.976m) for the first six months of the financial year, including $£ 0.818 \mathrm{~m}$ of additional healthcare income. This is offset by the release of $£ 0.935 \mathrm{~m}$ from the General

Contingency Reserve which is profiled in equal twelfths and a further $£ 6.000 \mathrm{~m}$ released from the Trust's Specific Reserves.

Note - may include rounding differences
The total overspend across operational divisions in September was $(£ 773,000)$ excluding healthcare income. Within this, the largest overspend was medical staffing ( $£ 396,000$ ) including ( $£ 226,000$ ) in relation to senior medical staff reflecting locum cover in Cardiac Surgery, Anaesthetics, Dermatology and Ophthalmology along with waiting list payments across a range of specialties. The balance of $(£ 169,000)$ relates to junior and middle grade doctors with agency costs in excess of funded vacancies primarily in Anaesthetics ( $£ 72,000$ ) and A\&E $(£ 82,000)$.

Nursing (including Theatre ODPs) pay budgets over spent by ( $£ 343,000$ ) in September. The majority of this overspend was across ward nursing ( $£ 230,000$ ), in particular across the $5^{\text {th }}$ floor which accounted for ( $£ 124,000$ ), due to a combination of annual leave cover, additional nursing for specific patients ('specials'), and the impact of sickness and vacancies. Other specific departmental overspends included Critical Care $(£ 50,000)$ and A\&E $(£ 45,000)$ due largely to activity pressures and the continued use of external agency staff to cover absence. Non-pay overspends during the month were largely activity related and include Theatres ( $£ 96,000$ ), Laboratories ( $£ 54,000$ ) and Imaging ( $£ 163,000$ ).

Income from the Injury Cost Recovery Scheme was $(£ 92,000)$ below target in September and is now ( $£ 509,000$ ) under budget for the year to date. This was offset in month by $£ 101,000$ of additional variable income in Cardiac Surgery and direct access / SLA over-performance of $£ 139,000$ across Imaging and Medical Physics.

## 5. Statement of Financial Position

The Statement of Financial Position shows the value of the Trust's assets and liabilities. The upper part of the statement shows net assets after deducting short and long term liabilities. The lower part identifies the sources of finance. Table 9 summarises the Trust's Statement of Financial Position at 30 September 2012.

Table 9 - Statement of Financial Position

Note - may include rounding differences

## 6. Capital Programme

The approved capital programme for $2012 / 13$ is $£ 12.8 \mathrm{~m}$ including donated assets. Capital expenditure for the year to date totals $£ 5.2 \mathrm{~m}$ which is ( $£ 0.9 \mathrm{~m}$ ) ahead of the year to date budget of $£ 4.3 \mathrm{~m}$. Actual expenditure in the month was $£ 1.7 \mathrm{~m}$ which included $£ 0.5 \mathrm{~m}$ for estates projects, $£ 0.5 \mathrm{~m}$ on medical equipment, $£ 0.4 \mathrm{~m}$ on ICT projects (including finance, disaster recovery and PACs) and $£ 0.3 \mathrm{~m}$ for New Hospital works. Several major projects are approaching completion slightly ahead of schedule and therefore total capital expenditure should move back in line with plan over the next quarter. A summary of expenditure against major schemes is provided in Appendix D.

Table 10 - Capital Expenditure against plan

## 7. Analysis of Current Assets (excluding Inventories and Cash)

The value of current assets (excluding inventories and cash) due within one year was $£ 39.7 \mathrm{~m}$ at 30 September 2012. Of this, $£ 21.5 \mathrm{~m}$ relates to Trade and Other Receivables (unpaid invoices raised by the Trust). Analysis of the outstanding debt by age is included in Appendix E and summarised in table 12 below.

Over 90 day debt as at 30 September was $£ 5.3 \mathrm{~m}$. Of this around $£ 2.5 \mathrm{~m}$ is attributable to debt with NHS commissioners due primarily to outstanding over-performance invoices for 2011/12. The largest balances relate to the Welsh Specialised Commissioning Agency ( $£ 1.0 \mathrm{~m}$ ), although this is down by $£ 0.4 \mathrm{~m}$ in the month, and Shropshire PCT ( $£ 0.7 \mathrm{~m}$ ). A further $£ 1.8 \mathrm{~m}$ relates to debt with others NHS providers for service level agreements. These include Birmingham Women’s Hospital ( $£ 0.9 \mathrm{~m}$ ), of which $£ 0.4 \mathrm{~m}$ was paid in the first week of October, and Sandwell \& West Birmingham (£0.2m). In aggregate these amounts are balanced by NHS creditors so there is little adverse impact on cash flow. Of the remaining over 90 day debt balance, $£ 0.6 \mathrm{~m}$ relates to the RCDM and this has also been paid since the month end.

## 8. Cash Flow

A cash flow statement is included as Appendix F showing actual cash received and paid out against forecast. Table 13 shows the month end cash book balance, the minimum and maximum daily bank balance in the month and a twelve month rolling average daily bank balance. The actual cashbook balance at 30 September 2012 was $£ 58.4 \mathrm{~m}$ which is $£ 9.3 \mathrm{~m}$ above plan due to favourable movements in working capital balances. The twelve month rolling average bank balance is broadly stable.

Table 13 - Cash Flow

## 9. Working Capital Facility

The Trusts working capital facility has been increased to £46.6m for 2012/13 to ensure that the Trust continues to meet the requirements of Monitor's liquidity ratio (part of the overall Financial Risk Rating). The overdraft has not been used to date and there are no plans to utilise the facility in the immediate future.

## 10. Monitor Ratios

### 10.1 Borrowing Ratios

New hospital PFI borrowing is incorporated into the Trust's Prudential Borrowing Code as it is considered to be a form of financing or loan. Therefore, the Tier 2 Borrowing Ratios now apply:

Table 14 - Borrowing Ratios

| Borrowing Ratio: | Limit | Annual Plan - 2012 | Actual - Sept 2012 |
| :--- | :---: | :---: | :---: |
| Minimum Dividend Cover | $>1.0$ | $\mathrm{n} / \mathrm{a}$ | $\mathrm{n} / \mathrm{a}$ |
| Minimum Interest Cover | $>2.0$ | 1.9 | 2.2 |
| Minimum Debt Service Cover | $>1.5$ | 1.2 | 1.3 |
| Maximum Debt Service to <br> Revenue | $<10 \%$ | $5.1 \%$ | $5.0 \%$ |

The first three ratios compare how many times the Trust's income and expenditure surplus can cover the PDC dividend, the interest payable on the PFI loan and the debt service of the PFI loan respectively (debt
service is the sum of interest paid and the capital repayment of the loan). The final ratio compares how many times the Trust's total income covers the Debt Service on the PFI loan.

The Annual Plan suggests that the Trust will be slightly under the Tier 2 Limits for the Minimum Interest Cover (1.9 vs a limit of 2.0) and the Minimum Debt Service (1.2 vs 1.5 limit), although based on actual performance only the latter ratio has been breached to date. Monitor's prudential borrowing guidance allows for borrowing limits to be authorised which exceed the ratios in certain circumstances (for example a major renovation or redevelopment). Therefore this does not affect the Financial Risk Rating however access to potential additional borrowing (e.g. Finance Leases) may be restricted.

The Trust's current Prudential Borrowing Limit (PBL) for long term borrowing is $£ 558.1 \mathrm{~m}$.

### 10.2 Financial Risk Rating

The Trust's Financial Risk Rating (FRR) is expected to remain at 3 based on the Annual Plan and Quarter 1 monitoring and self assessment of Quarter 2. The rating is set between 1 (worst) and 5 (best) based on a series of financial metrics.

## 11. Monitor Finance Declaration

As in previous years, FT's are required to submit a quarterly statement confirming that the Board anticipates that the Trust will continue to maintain a financial risk rating of at least 3 for the next 12 months. If this cannot be confirmed the Trust is required provide additional information detailing the Trust's response.

There is now only one form to be signed covering all three declarations (Finance, Governance and Quality). A copy of this is attached to the separate Monitor Quarterly Governance Declaration - Quarter 2 Report. For the Finance Declaration the Board is recommended to confirm that it anticipates that the Trust will continue to maintain an FRR of at least 3 for the next 12 months, based on current performance and financial planning.

## 12. Conclusion

An income and expenditure surplus of $£ 1.048 \mathrm{~m}$ has been reported for the first six months (April - September) of the 2012/13 financial year. This represents a favourable variance of $£ 0.748 \mathrm{~m}$ against the planned $£ 0.300 \mathrm{~m}$ surplus.

The recent income and expenditure trend has continued with operational division overspends being covered by additional activity income and Trust reserves. On the basis that current activity performance is maintained and the monthly rate of overspend across operational areas does not worsen, the Trust should exceed its planned $£ 0.600 \mathrm{~m}$ surplus for $2012 / 13$.

## 13. Recommendations

The Board of Directors is asked to:

- Receive the contents of this report.
- Agree that Monitor's new combined Governance Statement should be signed confirming that the Board expects the Trust to continue to maintain a minimum FRR of 3 for the next 12 months.
