## Report on the WRES indicators

### 1. Background narrative

a. Any issues of completeness of data

**Indicator 3** – is based on 1<sup>st</sup> June 2016 to 31<sup>st</sup> March 2017, as opposed to a two year rolling average. It includes both live and closed cases.

**Indicator 4** – data is based on non-mandatory training that is recorded on Moodle, as opposed to all non-mandatory training that has taken place. The dataset for the current reporting year relates to 1<sup>st</sup> April 2016 to 31<sup>st</sup> March 2017. The data set for the previous year relates to 1st January 2016 to 31st March 2016.

b. Any matters relating to reliability of comparisons with previous years

**Indicator 4** - The organisation utilises Moodle as its 'Virtual Learning Environment' (VLE) to host e-learning. Any member of staff enrolled onto multiple courses has only been counted once. Alterations to the education programme from one year to the next often reflect changing organisational priorities. Some courses are likely to be added to the programme whilst others may be removed and updated. In these instances direct comparisons may not always be possible. CPD is not captured centrally across the organisation as the range of activities is very broad and developed locally. This data does not reflect non-e-learning, such as, face to face training.

#### **2b & 3a: Comparison of proportion of BAME staff employed within the organisation / self-reporting at the date of the report:**

Last years' report did not include the category "Unknown" so the total staff population being examined was smaller than the actual total trust population.

### 2. Total numbers of staff

a. Employed within this organisation at the date of the report

10566 staff

b. Proportion of BAME staff employed within this organisation at the date of the report

27.35%

## Report on the WRES indicators, continued

### 3. Self reporting

a. The proportion of total staff who have self-reported their ethnicity

94.4%

b. Have any steps been taken in the last reporting period to improve the level of self-reporting by ethnicity

Awareness was raised in 2016/17 and work was carried out by the Trust through an emailed questionnaire, hosted on Moodle, to all staff asking them to self-report their ethnicity as well as other protected characteristics in order to improve the data which we hold on staff.

c. Are any steps planned during the current reporting period to improve the level of self-reporting by ethnicity

Further work planned for 2017 in the way of a targeted campaign to capture missing staff data.

### 4. Workforce data

a. What period does the organisation's workforce data refer to?

Indicator 1 – based on staff in post as at 31st March 2017

Indicator 2 – based on the period 1st April 2016 – 31st March 2017

Indicator 3 – based on disciplinary cases between 1st June 2016 – 31st March 2017

Indicator 4 – based on non-mandatory training data held on Moodle for the period 1<sup>st</sup> April 2016 – 31st March 2017.

Indicators 5-8 – 2015 and 2016 National Staff Survey

Indicator 9 – based on staff in post as at 31st March 2017

Relative likelihood of white staff being appointed from shortlisting compared to BAME staff is 1.58 times greater.	<p>The information taken from NHS Jobs shows that BAME applicants make up 46% of shortlisted applications and 35% of appointments at HEFT.</p> <p>Further investigation is required in order to understand the reasons for this.</p> <p>NHS England has quoted, "In 2016, white shortlisted applicants were 1.57 times more likely to be appointed from shortlisting than black and minority ethnic applicants".</p>	<p><b>Actions Taken</b></p> <p>Recruitment and Selection training for panellists has been revised along with a review of the Recruitment and Selection policy and rules have been redefined as to who can shortlist and be on interview panels.</p> <p>A review has been undertaken into all 'recruiting managers' in the Trust to ensure that anyone with recruiting responsibilities has undergone the R&amp;S training and this is refreshed every 3 years.</p> <p>An audit was carried out on a sample of recently recruited to positions in the Trust where there has been both White</p>

The audit did not highlight any areas of concern or where a fair process had not been applied.</p> <p>The Trust continues to roll out Values Based Recruitment, which is an evidence based selection process, to ensure staff are appointed based on behavioural suitability as well as technical suitability.</p> <p><b>Actions Planned</b> The Trust will be exploring options to introduce Unconscious Bias training to all managers in the Trust to reduce bias and discriminatory behaviours. In particular, “Unconscious Bias for Recruiting Managers” will be incorporated into the revised recruitment and selection training for all managers with recruiting responsibilities.</p> <p>Identify specific areas where there is a failure to recruit BAME staff – especially at senior bands.</p> <p>The Trust will ensure, where possible, the interview panel is diverse and that the panel is made up of panellists from other areas of the Trust.</p> <p>Formalise the recruitment process to “acting up” and all internal positions to improve fairness and equality to opportunity.</p>

				<p>Over the last 18 months a new Trust-wide Learner Management System (LMS) has been introduced. A phased approach to implement was adopted. Phase 1 involved the migration of all mandatory training elements. Phased 2 commenced in November 2015 and involves the gradual migration of the wider non-mandatory e-learning education portfolio. Full implementation continues however it is estimated that 85% of the education portfolio is now managed through Easy Learning.</p>	<p>An oversight group was established that worked with the Workforce Diversity Manager to consider and define appropriate improvement metrics.</p> <p><b>Actions Planned</b> Improved awareness and access to non-mandatory training, such as, mentoring (including reverse mentoring), shadowing, coaching and encouragement to join NHS Leadership Academy such as 'Ready Now' for BAME band 8a and above, 'Stepping Up' for BAME band 5 to 7 and other courses.</p> <p>Improved awareness and visibility of role modelling for BAME staff regardless of band or position.</p>

## Report on the WRES indicators, continued

**6. Are there any other factors or data which should be taken into consideration in assessing progress? Please bear in mind any such information, action taken and planned may be subject to scrutiny by the Co-ordinating Commissioner or by regulators when inspecting against the “well led domain.”**

The annual equality monitoring report is reviewed and agreed by Chief Executive Group/Trust Board

**7. If the organisation has a more detailed Plan agreed by its Board for addressing these and related issues you are asked to attach it or provide a link to it. Such a plan would normally elaborate on the steps summarised in section 5 above setting out the next steps with milestones for expected progress against the metrics. It may also identify the links with other work streams agreed at Board level such as EDS2.**

Actions relating to WRES will support evidence in respect of EDS2 and the annual equality monitoring report.
